Forward-looking Statements

Statements in this presentation that are not historical in nature constitute forward-looking statements. These forward-looking statements relate to information or assumptions about the effects of sales, income, earnings per share, operating income, operating margin or gross margin improvements or declines, Project Renewal, capital and other expenditures, cash flow, dividends, restructuring and other project costs, costs and cost savings, inflation or deflation, particularly with respect to commodities such as oil and resin, debt ratings, changes in exchange rates, expected benefits and financial results from the Jarden transaction and other recently completed acquisitions and planned divestitures and management's plans, projections and objectives for future operations and performance. These statements are accompanied by words such as "anticipate," "expect," "project," "will," "believe," "estimate" and similar expressions. Actual results could differ materially from those expressed or implied in the forward-looking statements. Important factors that could cause actual results to differ materially from those suggested by the forward-looking statements include, but are not limited to, our dependence on the strength of retail, commercial and industrial sectors of the economy in light of the continuation or escalation of the global economic slowdown or regional sovereign debt issues; currency fluctuations; competition with other manufacturers and distributors of consumer products; major retailers' strong bargaining power and consolidation of our retail customers; changes in the prices of raw materials and sourced products and our ability to obtain raw materials and sourced products in a timely manner from suppliers; our ability to develop innovative new products and to develop, maintain and strengthen our end-user brands, including the ability to realize anticipated benefits of increased advertising and promotion spend; product liability, product recalls or regulatory actions; our ability to expeditiously close facilities and move operations while managing foreign regulations and other impediments; a failure of one of our key information technology systems or related controls; the potential inability to attract, retain and motivate key employees; future events that could adversely affect the value of our assets and require impairment charges; our ability to improve productivity and streamline operations; changes to our credit ratings; significant increases in the funding obligations related to our pension plans due to declining asset values, declining interest rates or otherwise; the imposition of tax liabilities greater than our provisions for such matters; the risks inherent in our foreign operations, including exchange controls and pricing restrictions; our ability to complete planned divestitures; our ability to successfully integrate acquired businesses, including the recently acquired Jarden business; our ability to realize the expected benefits and financial results from our recently acquired businesses and planned divestitures; and those factors listed in our most recently filed Annual Report on Form 10-K filed with the Securities and Exchange Commission. Changes in such assumptions or factors could produce significantly different results. The information contained in this presentation is as of the date indicated. The company assumes no obligation to update any forward-looking statements contained in this presentation as a result of new information or future events or developments.

Q1 2016 Summary

- **Net sales of \$1.31 billion grew 4.0%** compared with \$1.26 billion in the prior year
- **Core sales grew 5.6%**, with growth in all five business segments and all four regions, driven by innovative new products and outstanding commercial execution
- **Normalized gross margin was 38.6%**, down 20 basis points to last year as the negative impact of foreign currency, mix from deconsolidating Venezuela and mix from acquisitions was only partially offset by productivity, input cost deflation and pricing
- **Normalized operating margin increased 100 basis points to 13.1%**, including a 40 basis point increase in advertising and promotion as a percentage of sales
- **Normalized EPS increased 11.1% to \$0.40**, from \$0.36 in the prior year, despite negative foreign currency impacts of \$0.04 per share
- **Operating cash flow was a use of \$270.9 million**, compared with a use of \$154.3 million last year, reflecting divestiture-related tax payments, Jarden transaction-related payments and an increase in annual incentive compensation payments related to strong 2015 results

Jarden Combination Completed April 15

2016 Full Year Guidance

Twelve Months Ending
December 31, 2016

Core Sales Growth	3.0% to 4.0%
Normalized EPS	\$2.75 to \$2.90
Weighted Average Diluted Shares	~430 million*
Effective Tax Rate	29% to 30%

* Assumes a share count of ~497M shares from April 15, 2016 onward, thus full year normalized EPS will be greater than the sum of the normalized EPS for each quarter

Guidance Assumptions

- As of April 15, 2016, core sales will include pro forma core sales associated with the Jarden transaction as if the combination occurred April 15, 2015
- Core sales exclude the impact of foreign currency, all acquisitions until their first anniversary and all planned and completed divestitures (including deconsolidation of Venezuela), but includes the negative impact of planned product line exits
- Core sales growth guidance assumes legacy Newell Rubbermaid core sales growth of 4 to 5 percent and legacy Jarden core sales growth of 2 to 4 percent* (which includes the negative impact of planned product line exits)
- Assumes \$250M to \$300M in product line exits across both legacy businesses over the next two to three years
- Starting with the second quarter of 2016, normalized EPS will exclude amortization of intangible assets associated with acquisitions, including the Jarden acquisition

* Roughly in line with legacy Jarden long-term guidance range for “organic sales growth” of 3 to 5 percent

(1) "Core Sales" is determined by applying a fixed exchange rate, calculated as the 12-month average in 2014, to the current and prior year local currency sales amounts, with the difference between the change in "As Reported" sales and the change in "Core Sales" reported in the table as "Currency Impact". Core Sales Growth excludes the impact of currency, acquisitions and planned and actual divestitures from the period the intent to divest is determined through the date of sale.

(2) Actual and planned divestitures represent the Rubbermaid medical cart business on a year-to-date basis and Levolor and Kirsch window coverings brands ("Décor") for the third quarter and fourth quarter.
